for CRT Monitor is about 60 to 80 VDC and for Television is about 110 VDC-it depends on sizes and model of the equipment too.

How To Completely Check The High Voltage Circuit In CRT

...

CRT displays one horizontal line in the center when turned-on Many time it happens that there appears a single thin horizontal line on the CRT TV screen. The probable cause of this problem can be a faulty yoke with a defective or burned coil inside it. The other probable cause can be loose contact between the yoke and the main board.
