5 Stars! from Doody's Book Reviews! (of the 13th Edition) "This edition continues to raise the bar for books on drug use and abuse. The presentation of the material is straightforward and comprehensive, but not off putting or complicated." As a long-standing, reliable resource *Drugs & Society, Fourteenth Edition* continues to captivate and inform students by taking a multidisciplinary approach to the impact of drug use and abuse on the lives of average individuals. The authors have integrated their expertise in the fields of drug abuse, pharmacology, and sociology with their extensive experiences in research, treatment, drug policy making, and drug policy implementation to create an edition that speaks directly to students on the medical, emotional, and social damage drug use can cause.

This work focuses on the many critical areas of America's drug problem, providing a foundation for rational decision making within this complex and multidisciplinary field. Broken up into three sections, *Understanding the Problem*, *Gangs and Drugs*, and *Fighting Back*, topics covered include the business of drugs and the role of organized crime in the drug trade, drug legalization and decriminalization, legal and law enforcement strategies, an analysis of the socialization process of drug use and abuse, and a historical discussion of drug abuse that puts the contemporary drug problem into perspective.

"The first edition of this *Drugs in American Society* was published a half-century ago, when systematic, reliable, nationally-representative data on drug use

were not available; the information that social scientists used back then to draw conclusions about the consumption of mood-altering drugs was patchy, incomplete, and in all likelihood, skewed. Today, if anything, there is virtually a churning sea of informative data about the subject of this book, and the task is sifting through it all. (In fact, fairly frequently, different sources promulgate slightly different statistics, a glitch no acute observer of the drug scene should be distressed by.) Much of this information is produced by ongoing data-gathering enterprises, mainly government sponsored, that conduct surveys, often regularly, so that it is possible for the interested student, scholar, researcher, and nonprofessional to produce an up-to-date picture of the drug situation in the United States. It seems almost redundant to mention this and, when relevant, I shall make the point more forcefully: The COVID-19 pandemic has impacted on virtually all aspects of our lives, beginning, in the United States, early in 2020"--
