The pleasure of your company is requested at Warbury Park. Four lovely ladies will arrive... but only one can become a duchess. James, the scandalously uncivilized Duke of Harland, requires a bride with a spotless reputation for a strictly business arrangement. Lust is prohibited and love is out of the question. Four ladies. Three days. What could go wrong? She is not like the others... Charlene Beckett, the unacknowledged daughter of an earl and a courtesan, has just been offered a life-altering fortune to pose as her half-sister, Lady Dorothea, and win the duke's proposal. All she must do is: \* Be the perfect English rose [Ha!] \* Breathe, smile, and curtsy in impossibly tight gowns [blast Lady Dorothea's sylph-like figure] \* Charm and seduce a wild duke [without appearing to try] \* Keep said duke far, far from her heart [no matter how tempting] When secrets are revealed and passion overwhelms, James must decide if the last lady he should want is really everything he needs. And Charlene must decide if the promise of a new life is worth risking everything . . . including her heart.

From crime scene to morgue to courtroom, and finally the court of public opinion, this riveting narrative is essential reading for true-crime enthusiasts. If you think the media has told you everything there is to know about Michael Jackson and Casey Anthony, think again! This engrossing, almost cinematic page-turner, offers never-before-published information on the mysterious deaths of Michael Jackson and Caylee Anthony, plus five other ripped-from-the-headlines criminal cases. Based on the authors' long investigative experience, these two insiders offer revealing insights into the

following high-profile cases: -Casey Anthony: An assessment of the Trial of this Century, during which a Florida mother stood accused of killing her young daughter, Caylee. At stake were issues that included accuracy of air sampling and cadaver dogs, post-mortem hair banding, chloroform, duct tape identification, computer clues, and deep family secrets. -Michael Jackson: The authors provide never-disclosed data on the autopsies of Jackson's body and a microscopic view of the singer's life and career, plus analysis of the cardiologist charged with his death: Was Dr. Conrad Murphy recklessly negligent or a fall guy for a hopelessly addicted celebrity? -Drew Peterson: Heroic Illinois SWAT team cop or wife killer? Did his third wife slip and fall in the bathtub, or was she beaten and drowned? The controversy over her death led to an exhumation and the filing of homicide charges against him, but can prosecutors prove their case? And what happened to his fourth wife, who remains missing? -Rolling Stone Brian Jones: Was the rock musician's death an accident or something more sinister? And was he impaired by drugs or alcohol when he died? After more than forty years, there is finally an answer. In addition, the authors examine the tragic death of twelve-year-old Gabrielle Bechen, whose rape-murder changed her community; Col. Philip Shue, whose demise was a battle of suicide versus homicide until Dr. Wecht solved the case; and Carol Ann Gotbaum, a respected Manhattan mother who died in police custody in Phoenix.

FBI Special Agent Zoe Prime suffers from a rare condition which also gives her a unique talent—she views the world through a lens of numbers. The numbers torment her, make her unable to relate to people, and give her a failed romantic life—yet they also allow her to see patterns that no other FBI agent can see. Zoe keeps her condition a secret, ashamed, in fear her colleagues may find out. When women are found murdered, their bodies branded with mysterious numbers, outside Washington, D.C., the FBI, stumped, calls in Special Agent Zoe Prime to decipher the mathematical riddle and find the serial killer. Yet the numbers make no sense. Are they a pattern? A formula? Or do they have no meaning at all?
