OHSAS 18001:2007 (initial version OHSAS 18001:1999) is the predecessor to the recently released ISO standard ISO 45001:2018. The OHSAS standard was recognised internationally but it is not an ISO standard. Over time it has become increasingly apparent that too many workers are suffering from OH&S related illnesses, injuries and deaths, placing an unacceptable burden on people, their families ...

ISO 45001:2018

ISO 45001 is finally published, so the experts and the companies that are planning the transition or implementation are looking into the requirements for documented information. The new standard introduces a new approach to document and record control, which replaces the OHSAS 18001 requirements for records and procedures with new requirements for documented information.

ISO 45001 documents: List of required policies & procedures

OHSAS 18001 is the internationally recognized assessment specification for occupational health and safety management systems. National bodies like BSI, ANSI, BIS and others have developed standard based on these specifications or on their own. BS OHSAS 18001 is equivalent British standard while IS 18001 is an equivalent Indian standard.
