Read about the women who came out of Bryn Mawr's class of 1962 and what they've done with their lives.

Friends question each other's trust and respect as life presents serious challenges. Arturo and Sophia plan a spiel night following their senior party but circumstances prevent this from transpiring. Sophia then finds a suggestive photo of Arturo, which strains their relationship. Renaldo deals with alcoholic parents and his own temptation to drink, especially during a crisis with his girlfriend. Millicent struggles with her introversion and an overprotective mother. Conrad is out to prove his manhood. Wyatt has strong principles tested by the lure of the flesh. And Andrea thinks every guy she meets is Mr. Right - until after a few dates, when he becomes Mr. Wrong. Impatient, she wonders if she will ever find her man. The responsibilities of adulthood have these friends drifting apart and feeling alone, even helpless. When the most formidable situations arise, will friendship last?

H Arnold Barton has contributed to Letters from the Promised Land: Swedes in America, 1840- 1914 as an author. H. Arnold Barton, professor of history at Southern Illinois University at Carbondale, is the author of ""The Search for Ancestors: A Swedish-American Family Saga, ""and ""Scandinavia in the

Revolutionary Era, 1760-1815.

Written to meet the needs of thousands of students and pre-professional singers participating in production workshops and classes in opera and musical theater, *Acting for Singers* leads singing performers step by step from the studio or classroom through audition and rehearsals to a successful performance. Using a clear, systematic, positive approach, this practical guide explains how to analyze a script or libretto, shows how to develop a character building on material in the score, and gives the singing performer the tools to act believably. More than just a "how-to" acting book, however, *Acting for Singers* also addresses the problems of concentration, trust, projection, communication, and the self-doubt that often afflicts singers pursuing the goal of believable performance. Part I establishes the basic principles of acting and singing together, and teaches the reader how to improvise as a key tool to explore and develop characters. Part II teaches the singer how to analyze theatrical work for rehearsing and performing. Using concrete examples from *Carmen* and *West Side Story*, and imaginative exercises following each chapter, this text teaches all singers how to be effective singing actors.

On the eve of the twentieth century, small-town Texas was still wild country lacking

in the commodities and cultural centers of larger cities. This changed, however, with the arrival of the Santa Fe rail line, followed quickly by the Harvey House. Established in Kansas by English immigrant Fred Harvey, Harvey Houses could be found throughout the Southwest and adjoined local depots in sixteen Texas towns. Found in every corner of the state, Harvey Houses were not just restaurants and hotels for weary, hungry travelers but were also bustling social centers and often the only commercial outlet for the communities that developed around them. Author Rosa Walston Latimer tells the history of hospitality the "Fred Harvey way" in turn-of-the-century Texas, woven from personal stories of the famous "Harvey Girls" and other employees of Texas Harvey Houses.

Two social scientists chart the consequences of the global economy on women across the world, revealing the underground economy that has turned many poor women into virtual slaves. Reprint. 12,500 first printing.

Most historical studies of child labour have tended to confirm a narrative which witnesses the gradual disappearance of child labour in Western Europe as politicians and social reformers introduced successive legislation, gradually removing children from the workplace. This approach fails to explain the return or continuance of child labour in many affluent European societies. Centuries of Child Labour explains changes in past child labour and attitudes to working children in a way that helps explain the continued survival of the practice from the seventeenth

through to the late twentieth centuries. Centuries of Child Labour conveys a richer sense of child labour by comparing the experiences of the Northern European periphery to the paradigmatic cases of Britain, and France. The northern cases, drawing heavily on empirical evidence from Sweden, Finland and Russia, test received ideas of child labour, through comparisons with Britain, France, Germany, Italy and Spain. Presenting the children themselves as the main protagonists, rather than the law makers, industrialists and social commentators of the time, Marjatta Rahikainen provides fresh information and perspectives, offering revelations to readers familiar only with the situation in France and Britain.
