Thousands of readers have gained from reading this witty, no-nonsense guide to powerful business writing. Hailed as "The Elements of Style for the 21st century" by New York Times best-selling author Michael Levin, Danziger's book carries readers through the entire writing process, from the moment they wish they could run screaming from the job until they complete a polished, clear document. An extensive section on writing for email and social networking sites sets the second edition apart from the first. This is a quick, easy read that provides a vital reference for all business readers.

Offers information on writing for business, including proofreading, concise writing, revising, grammar, and punctuation.

Reading comprehension gets easier as students learn what kind of reader they are, discover how to keep facts in their head, and much more. Titles in Barron's extensive Painless Series cover a wide range of subjects, as they are taught at middle school and high school levels. Perfect for supporting Common Core Standards, these books are written for students who find the subjects somewhat confusing, or just need a little extra help. Most of these books take a lighthearted, humorous approach to their subjects, and offer fun exercises including puzzles, games, and challenging "Brain Tickler" problems to solve. Bonus Online Component: includes additional games to challenge students, including Beat the Clock, a line match game, and a word scramble.

The Painless Negotiation leverages the principles of The Compelling Proposal to turn "negotiations" into straightforward business discussions on how to best maximize the value in a deal for both parties. Using just three key concepts, anyone can accurately diagnose which side has the power, how compelling a deal is and to whom, how to trade to overcome obstacles, and how to frame the "right negotiation" to implement the best negotiation strategy. Negotiating the "right way" then means ensuring we always trade (versus concede) and that no single thing is ever taken off the table-or agreed to-until the whole deal is agreed to. From the book: "The formal negotiation is ... where either all the good things you've done can pay big dividends, or all the 'sins' you've committed will have to be atoned for." "Not creating value when selling and/or failing to ensure value delivery from previous purchases ... are the primary reasons that deals get stuck at the point of negotiation." "While it may seem counterintuitive, it is easier to negotiate a deal with a dozen deal levers on the table than with just one or two." "How you manage the negotiation with procurement will have a big influence on how the customer feels about the deal they make with you."

David has congenital insensitivity to pain with anhydrosis—or CIPA for short. One of only a handful of people in the world who suffer from CIPA, David can't do the things every teenager does. He might accidentally break a limb and not know it. If he stands too close to a campfire, he could burn his skin and never feel it. When David's legal guardian tells him that he needs to move into an assisted living facility, David is determined to prove him wrong. He creates a bucket list, meets a girl with her own wish list, and then sets out to find the parents who abandoned him years ago. All David wants to do is grow old, beat the odds, find love, travel the world, and see something spectacular. While he still can.
