The success of every business in the hospitality industry depends on maximizing revenues and minimizing costs. This Ninth Edition continues its time-tested presentation of fundamental concepts and analytical techniques that are essential to taking control of real-world accounting systems, evaluating current and past operations, and effectively managing finances toward increased profits. It offers hands-on coverage of computer applications and practical decision-making skills to successfully prepare readers for the increasingly complex and competitive hospitality industry.

Hospitality Finance and Accounting provides a uniquely concise, accessible and comprehensive introduction to hospitality, finance and accounting from a managerial perspective. By avoiding unnecessary jargon and focusing on the essentials, this book offers a crucial breakdown of this often overly-complex subject area. The concise chapters cover the essential concepts, ideas and formulas to be mastered within the hospitality industry including income statements, balance sheets, pricing and budgeting. Each chapter is split into two sections: theory and practice, giving students practical insight into the everyday realities of the hospitality industry through case studies which show how theories are applied to a range of relevant scenarios. Emphasis is placed particularly on the practices of revenue and budget management within the food and beverage industry. This will be an essential introductory yet practical resource for all Hospitality students and future managers within the industry.
