This book is meant for students of accounting, management and business studies. It not only describes the principles, procedures and techniques of management accounting, but also explains and analyses the core concepts that have driven the development of the subject for decades. The book is a perfect blend of conceptual and practical approaches to accounting. NEW IN THIS EDITION □ Completely revised and updated □ New chapters on strategic management accounting, product costing, and service costing □ Coverage of total quality management (TQM), just-in-time (JIT), life cycle costing, and Kaizen costing □ Worked out solutions to problems and latest professional examination questions

The third edition of Management Accounting (Eldenburg et al.) covers all the core topics across the two undergraduate management accounting courses, with an increased New Zealand business focus and more in-depth coverage of not-for-profit organisations. It brings course content to life with rich media such as practitioner videos, case studies and 'In a Nutshell' revision materials embedded at the point of learning.
