## **Preaccident Investigations An Introduction To ...**

Human Performance is a safety philosophy that recognizes that workers make errors. And most of the time no one cares, because nothing negative happens. Pre-Accident Investigation recognizes that these errors are a treasure of information for the organization, if the organization uses them to learn.

When done correctly, an effective incident investigation uncovers the root causes of the incident or 'close call' that were the underlying factors. Most important, investigations can prevent future incidents if appropriate actions are taken to correct the root causes discovered by the investigation.
